

Stiles Machinery

Grand Rapids, Michigan, USA

What's the right solution?

Router, panel saw, or both? Either way, Stiles is your choice. We offer the best solution to meet your production needs.

For over 40 years, Stiles has been helping manufacturers succeed. More than the largest supplier of quality machinery, Stiles provides a Total Production Solutions approach by also offering plant layout. By offering a wide range of solutions, Stiles can help you find the best/optimal solution for your application.

To ensure that your machines are always performing their best, Stiles provides after-sale support in the following key areas:

Education

Fully accredited educational facility provides the knowledge and skill development to achieve higher productivity.

Enhancement technologies (E-Tech)

Extend the life of your investment with a wide range of remanufacturing capabilities, including rebuilding and upgrade services.

Parts

24/7 access to parts to minimize downtime. Inventory in excess over \$30 million of spare parts to help provide same day service.

On-site service

When you need service, you need it fast. Stiles has over 100 factory trained technicians located nationwide ready to help.

Technical support

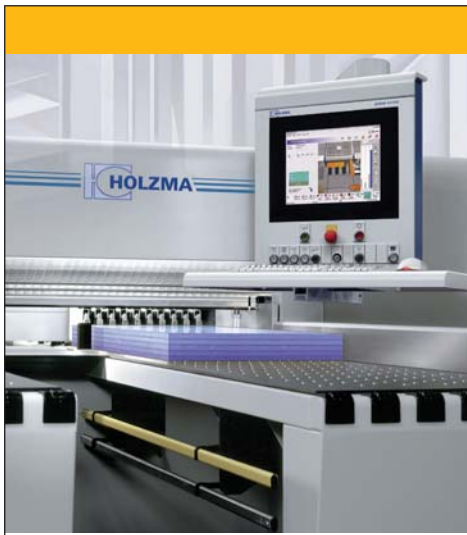

24 hours access so you are back in production quickly.

Find the right solution for your application. Visit www.stilesmachinery.com.

Holzma U.S., 1200 Tulip Drive, Gastonia, NC 28052 USA; (704) 861-8239, fax (704) 867-4140, Bill Pitt, V.P., bpitt@stilesmachinery.com.

optimize

Material, equipment and work flow

Holzma plastic cut-up systems deliver greater productivity at lower costs.

Holzma HPP 380P

- especially for plastics fabricators
- beautiful edge quality even on very thin PETG sheets
- CutRite software optimizes material use

Our national support network and same-day parts program ensure you receive technical assistance when you need it. The Holzma U.S. division of Stiles Machinery delivers the long term value you can count on.

To learn more, contact Bill Pitt, V.P. Holzma U.S. division of Stiles Machinery at 704.861.8239 or bpitt@stilesmachinery.com.

economize

Excellent quality and price

You can have both. The Weeke Vantech is a solution for CNC routing that delivers excellent quality at an affordable price.

Weeke Vantech

- Quality German engineering at a Made in America value
- Powerful routing capabilities and dual drive system
- Dependable Windows-based programming software

Four high-efficiency vacuum pumps are uniquely stored under the machine. To save energy, one serves as the master while the other three are utilized as required.

You can't afford to wait. Delivering maximum flexibility and easy integration with popular design packages, the Weeke Vantech is a powerful router packaged with everything you need to begin producing quality parts quickly and more efficiently.

For more information contact Stephan Waltman, VP at 616.698.7500 or swaltman@stilesmachinery.com.
